A.T. Loan Program Specification Sheet

This Specification Sheet is provided as a convenient reference for commonly recommended Assistive Technology (AT) equipment. It does not represent the full range of AT available through the loan program. Equipment not listed may still be recommended or requested, pending approval from AvenueNB/PETL.

When completing applications for CSG funding, please refer to the manufacturer's website for the most current suggested retail price, as prices change frequently and the amounts listed in this specification sheet may no longer be accurate. Be sure to quote the price before any sales or discounts to ensure there is sufficient funding to cover the full cost of purchase. For example, for an HP laptop, please visit www.hp.com, for a Mac, please visit www.apple.com, to obtain the up to date price.

For recommendations not included in this specification sheet, please include a website link to the equipment. This will help in confirming product details and identifying the best available pricing.
